

John Angelo Bitana

JUNIOR WEB DEVELOPER

JLPT N1 | Yokohama, Japan | (+81)09083642631 | Leeyoonhun02@gmail.com
| [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Junior Web Developer with hands-on experience building responsive web applications using JavaScript, React, HTML, and CSS. Experienced in individual and collaborative projects involving REST APIs, authentication, and database-driven applications. Previous experience as a Japanese-bilingual Bridge Systems Engineer working between Japanese clients and offshore development teams. JLPT N1 certified with strong cross-cultural communication, problem-solving, and technical documentation skills.

Technical Skills

- Frontend: JavaScript, React, HTML5, CSS3
- Backend: Node.js, Express.js, MongoDB, REST APIs
- Tools: Git, GitHub

Projects

- [Paynear](#) — React, Node.js, Express, MongoDB
Full-stack location-based web application for discovering businesses, saving locations, and communicating with establishments. Developed messaging and administrative functionality as part of a team project.
- [Budget Buddy](#) — React, JavaScript, CSS
Personal finance application for tracking income and expenses and managing a budget.
- [JP Sensei](#) (API Chat bot) — JavaScript, HTML, CSS, Gemini API
Japanese-learning chatbot that integrates an external API to provide interactive Japanese-language responses.
- [Portfolio](#) — JavaScript, CSS
Responsive personal portfolio showcasing my web development projects, technical skills, and professional background.
